Introduction

- Enclosed is the weekly Treasury Single Account ("TSA") cash flow report and supporting schedules.
- TSA is the Commonwealth's main operational bank account (concentration account) in which a majority of receipts from Governmental funds are deposited and from which most expenses are disbursed.
- Beginning April 2016, TSA receipts are deposited in a commercial bank account rather than the Government Development Bank for Puerto Rico ("GDB").
- Receipts in the TSA include tax collections (including revenues assigned to certain public corporations and pledged for the payment of their debt service), charges for services, intergovernmental collections (such as reimbursements from Federal assistance grants), the proceeds of short and long-term debt issuances held in custody by the Secretary of Treasury for the benefit of the Government fiduciary funds, and other receipts. Only a portion of the revenues received by the TSA is included in the annual General Fund budget presented to the Puerto Rico Legislative Assembly for approval. Other revenues are separately assigned by law to certain agencies or public corporations but still flow through the TSA.
- Disbursements from the TSA include payroll and related costs, vendor and operational disbursements (including those reimbursed by Federal assistance grants and funded from Special Revenue Funds), welfare expenditures, capital outlays, debt service payments, required budgetary formulas and appropriation payments, pass-through payments of pledged revenues to certain public corporations, tax refunds, payments of current pension benefits and other disbursements.
- Federal funds related to disaster relief for hurricanes Irma and Maria are deposited in a separate bank account overseen by the Government Authorized Representative ("GAR"), and transferred to the TSA only after admissable disbursements (per approved Project Worksheets) have been made.
- Data for TSA inflows/outflows is reported from various systems within the Department of Treasury of Puerto Rico ("DTPR"):

 Cash Flow Actual Results Source for the actual results is the TSA Cash Flow.
 - Schedule A Collections Source for collections information is the DTPR collections system.
 - Schedule B Central Government Live Web Portal AP Aging
- Data limitations and commentary:

The government has focused on the seven schedules above for which access to reliable, timely, and detailed data is available to support these items. The government continues to work with DTPR and other parties to access additional reliable data that would help us provide detail in the future for other line items in the Cash Flow.

Note: The enclosed TSA report includes weekly FY19 actual TSA results. The FY 2019 TSA Liquidity Plan is under development. Following the development of the FY 2019 TSA Liquidity Plan, this package will include a comparison of FY19 actual TSA cash flow data to the FY 2019 TSA Liquidity Plan along with the relevant commentary. Until that time, FY18 actual TSA results will be presented for comparison purposes and variance analysis.

Summary Commentary: FY19 9/14 YTD Actuals vs. FY18 9/15 YTD Actuals (a)

Cash Flow line item	To	tal Variance Comments
Inflow - Collections	\$	251,021 Variance is largely driven by FY19 YTD outperformance of Individual Income Taxes (+\$59M), Corporate Income Taxes (+\$58M) and Act 154 collections (+\$95M).
Inflow - Pension Inflows	\$	(319,359) Variance is mostly due to FY2018 Pension Asset sales of \$390M which occurred in July of 2017.
Inflow - Federal Fund Receipts	\$	1,091,138 Variance is mainly driven by increased federal funding for the Medicaid Program, Nutritional Assistance, and funds received for federally-reimbursable vendor disbursements.
Inflow - PREPA Loan	\$	126,211 Puerto Rico Central Government loaned \$300M to PREPA pursuant the Superpriority Post-petition Revolving Credit Loan Agreement (The Agreement) in February of FY2018. Inflows relate to mandatory loan repayments based on PREPA revenues and cash balance in FY2019.
Outflow - ASES Appropriations	\$	(380,777) Increase in outflows to ASES (Medicaid funds) corresponds to the increase in Federal Fund Receipts for Medicaid provided for in the BBA.
Outflow - Vendor Disbursements	\$	(557,982) Increase in vendor payments is mainly driven by FEMA Cost Share payments (\$101M), Title III disbursements (\$58M), with the remaining year over year increase due to payments related to the prior budget period, most of which relates to federally reimbursable vendor payments (\$352M).
Outflow - NAP appropriations	\$	(209,552) Increase in outflows for NAP corresponds to the increase in Federal Fund Receipts for the Nutritional Assistance Program provided for in the Additional Supplemental Appropriations for Disaster Relief Requirements Act of 2017.
All Other	\$	45,128
Total 9/14 YTD Variance	\$	45,829

⁽a) Collections presented only include Act 154 Collections received into the Collections Post Account (CPA). Additional Act 154 Collections are received into a separate account and cash flow line item, shown on page 6 in line 4: Excise Tax through Banco Popular. Total Act 154 Collections are therefore the sum of these two amounts.

⁽b) Retained Revenues are revenues are revenues conditionally assigned to certain public corporations and the collections of those revenues are through accounts referred to as "pass through" accounts, the majority of which include (i) ACAA auto insurance, (ii) AFI/RBC petroleum tax, (iii) ASC personal injury insurance, and (iv) HTA toll revenues.

⁽c) Due to timing. Receipts in collections post account occur approximately two business days prior to being deposited into the TSA.

(a) This report reflects output from the AP web portal system that was phased in on, or around July 1, 2018. Over time, the web portal will provide for a more timely and accurate accounting of Government liabilities and more efficient payment to vendors. Currently, there's an ongoing effort with the major agencies to implement the appropriate processes and controls needed to fully transition to the web portal and realize these improvements in reporting and efficiency. Therefore, there may exist a backlog of invoices that need to be vouched and entered into the system to represent entire AP population.

(b) The numbers presented above represent the Central Government live AP Web Portal repository of third party and intergovernmental invoices by agency. On a go-forward basis, vendors submit invoices for approval through the aforementioned Web Portal where they are logged electronically, matched with the appropriate purchase order or other relevant documentation, and approved / vouchered at the agency level through the online interface. The above sum of invoices by Agency is subject to change on a weekly basis as corrections are made within the system or where discrepancies between vendor submissions and agency supporting documentation are noted.

(c) Prior to the implementation of the live AP Web Portal, various manual invoice ledgers were maintained to track the Central Government's Partial Inventory of Known Short Term Obligations. As the transition from manual ledgers to the Web Portal is still ongoing, the sum of invoices captured above may not reflect the entire population of Central Government obligations and therefore the population above may potentially be understated. The total of Unmatched Invoices is therefore presented to show the amount that is currently under review and reconciliation with the AP Web Portal. Unmatched invoices are tracked in manual ledgers as the process is still ongoing to validate these invoices have (i) been paid / not yet paid; or (ii) are appropriately included / excluded from the AP Web Portal. Central Government is working each week to reduce the amount of invoices currently maintained outside the Web Portal until all short term obligatios are captured within the report above at the agency level of detail.
